

The ROMNET-ERA project (www.romnet.net) launched a Centres database (www.romnet.net/db/db.php) dedicated to the identifying and screening of research groups (from three separate research systems: national R&D institutes, university research centers, research units of the Romanian Academy) that is focused on some priorities of FP 6. For detail about the information listed below please register your Centre, Laboratory, Institution in our database. Based on username and password send by webmaster after registration you get access to Search Questionnaire (www.romnet.net/auth/login.php).
