

# 2026 International Semiconductor Conference CAS

49<sup>th</sup> edition

14-17 October, 2026

Sinaia, Romania

[www.imt.ro/cas](http://www.imt.ro/cas)

Every year, the International Semiconductor Conference (CAS), [IEEE Electron Devices Society \(EDS\)](http://www.ieee.org) event, stands as a premier forum for scientists, industry experts, and students to share groundbreaking research in **semiconductor technology**, **device physics**, and the evolving landscape of **micro and nanotechnologies**.

We invite you to join a global community of experts at the CAS Conference, an ideal platform for private companies to **highlight their services and elevate their brand** among a world-class network of professionals!

**Experience four days of professional growth and connection** through our schedule of presentations, workshops, exhibition and a social and networking program, including a Welcome Cocktail, a guided trip, and a formal Banquet.

## Expected audience

Around 200 participants from top research centres, universities and industry.

The last conference edition, CAS 2025, attracted 240 attendees representing 79 organisations from 22 countries.

## Conference topics

Nanoscience & Nanoengineering

Micro- & nanophotonics & Optoelectronics

Microwave & Millimeter Wave Circuits & Systems

Microsensors & Microsystems

Modelling

Semiconductor Devices

Integrated Circuits

Devices & Smart Systems for Biomedical & Health Applications

## Reasons to attend CAS 2026

- **Elevate Your Innovation:** Present your groundbreaking products, services, and solutions to an audience enthusiastic for the industry breakthroughs.
- **Strengthen Your Leadership:** Demonstrate your brand's leadership and robust market position to a targeted audience.
- **Foster Client Loyalty and Scale Your Network:** Re-engage with your existing customer base to maximize retention and tap into an expanded pool of high-potential clients.
- **Engage in Scientific Discovery:** Participate in a unique collaborative environment dedicated to exploring contemporary research and trends.
